

"For we are co-workers in God's service; you are God's field, God's building." 1 Cor. 3:9 NIV

The Harvest Times

A Publication of World Missions

Annual Harvest Offering November 2024

Building the Kingdom of God around the world can look like many things. Most often we may think of preaching and teaching, and those are certainly involved. However, building the Kingdom of God can also include small, tangible steps that support the preaching and teaching of the Word.

For this year's Annual Harvest Offering, we invite you to invest in specific projects—building blocks—to support the work of God in Myanmar and Papua New Guinea.

- The construction of a new building for Shiloh Bible College in Myanmar has been stalled due to lack of funds. This building will house the college classrooms, girls' and boys' dormitories, school offices and library, as well as church services. Your gift will help provide **doors for this four-story building**. (Goal: \$5000)
- Most of the study materials available for Shiloh Bible College students are in English. We would like to see Dr. Lo's study, **God's Call to Holiness, translated into Burmese and printed** for the use of the students and the churches. (Goal: \$2000)
- The Literacy Project in Papua New Guinea has seen cultural stories with a moral lesson printed for distribution to the Solos elementary schools. There are additional funds needed to cover the **printing, shipping, and distribution costs**. These books will help Solos children learn to read their own language and prepare them to be able to read the Solos Bible. (Goal: \$5000)
- The Doyle family is facing some **unexpected expenses for health needs**. Christy and their youngest son, Jacob, have come to the US so she can have a CT scan and additional surgery on her left foot. Your donation will help World Missions cover these costs. (Goal: \$5000)

These are exciting, tangible ways that you can partner with World Missions. Your gift to this year's Annual Harvest Offering will fund these needs.

Will you consider how you can partner with us as we seek to build the Kingdom of God in Myanmar and Papua New Guinea?

Baptisms in Cayman Brac

By Dr. Gayle Woods

Dr. Woods sends out monthly email updates from the churches in Cayman Brac. If you would like to receive these, please send your request to rox-ene.io@coghworldmissions.org. Below is an excerpt from his October report.

In the mid-week service at Watering Place a new lady who just attended for the first time one week prior surprised us by getting up to tell us that God had saved her and she wanted to live for Him. In conversation with her she told me that she was sitting in her living room looking at Tik-Tok on her phone, watching a Christian song, and God spoke to her and told her that it was time for her to confess her sins and give her heart and life to Him. She did so, and is excited about her new life in Christ. She told me that she wanted to be baptized, and so I met with her the following Saturday to explain what baptism was and wasn't. As I shared scriptures with her she clearly witnessed once again to my wife and me of a victorious life in Jesus.

One of our teenage girls had also given her heart to Jesus recently and wanted to be baptized. I met with her as well and arranged to baptize both of the ladies. This past Sunday people from both of our churches met at the high school swimming pool for a glorious time of worship. Both ladies testified to the people gathered about what God had done for them, and then I had the privilege of baptizing them.

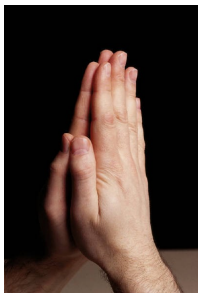

Christy Doyle and Jacob attended a parade in February of 2023 during the family's last visit to the U.S.

Arrival in the U.S.

Because another surgery is needed for Christy Doyle's left foot, she and her youngest son, Jacob, arrived in Oklahoma the end of October.

Pray for the doctors to be able to correct the issue causing Christy's pain. Please also pray for Larry, Lawrance II, and Amaziah, who stayed in Papua New Guinea to complete school and continue their ministries.

Thank you for giving to World Missions. 5-10% of most donations are used for administrative costs.
